

CASE STUDY

NATIONAL BIG BOX STORE

ABOUT THE CLIENT

The Big Box store Ingersoll partnered with is one of the largest retail establishments in the nation, with over 330 store locations in the United States that serve thousands of customers every day. Each store has roughly 200,000 square feet.

CHALLENGE

Their headquarters used T8 tubes that required ongoing maintenance and had a complicated installation process. They needed a solution that would save them time, energy, and money.

SOLUTION

We provided a turnkey, cost effective solution by retrofitting existing fixtures with a T8 LED replacement that ensured ease of installation while eliminating the need for fixture maintenance.

Direct only tubes offer a no maintenance solution for retrofit options. They are equipped to receive direct power, eliminating the need for the fixture to have a ballast, which require future maintenance. Ingersoll Lighting replaced all the lighting in the store and managed all logistical aspects of the project providing a turn-key solutions package making the process as seamless as possible.

PROCESS

With our customized approach, this client increased the efficiency and effectiveness of their indoor lighting for employees and customers alike.

- 1 Discovery Call
- 2 Lighting Audit
- 3 Custom Solutions
- 4 Project Management

RESULTS

Due to Ingersoll Lighting's customized solutions and turn-key project management, the Big Box store has:

- Eliminated light fixture maintenances
- Increased their energy efficiency
- Saved 8.7 million dollars on average, annually

NEXT PHASE

Ingersoll Lighting replaced all the lighting for all the Big Box stores nationwide, managing all logistical aspects of the project, providing a turn-key solutions package. Ingersoll Lighting proved to be a trusted partner providing excellent project management and a solution that saved millions of dollars.

SAVINGS

Since our partnership began, the Big Box store has seen an estimated \$8.7 million of annual savings from lighting energy costs for the corporation.
